

3 bedroom Villa + apartment in Torremuelle, Benalmadena Costa

Asking Price: €32,000.00

For Sale Ref: 31

We now have available a stunning family villa that sits high in the Torremuelle hillside. This location alone is priceless but the villa just adds to the value. As you enter the grounds of this villa you see the stunning lawn gardens that sweep around the whole of the villa.

These are beautifully kept with a vast variety of shrubs and trees. There are also various terraces situated around the villa and also a fantastic swimming pool. The villa is unusual with a crescent moon layout rather than your standard box or rectangle; this is a real feature of this property that you really notice from the coastal side of the villa. You enter the villa from a large terrace and walk through the double entrance doors into a large hall that leads to the courtyard area and outside terraces or on to the dining area, the whole house has been fully tiled with marble flooring and the décor and carpentry is of top quality.

You step down into the wonderful lounge area with feature fireplace and large windows; this really is an area to relax.

There is a new fully fitted kitchen with all modern appliances and this is finished with a silsstone granite work surface. You also have a large utility room to the far end of the kitchen.

To this level of the villa there are three enormous bedrooms all with fitted wood wardrobes of the highest quality, the main bedroom is approximately forty square metres and this does not include the en suite bathroom. From the main bedroom you also have a terrace that leads to the swimming and stunning views. With the other two bedrooms of twenty-five metres approximately each, space is definitely not a problem. There is also one more family bathroom.

Viewing is by appointment with the exclusive selling agents
